EIGHT MICHIGAN PEOPLE PERISH

Storm in That State Fatal to Many Persons.

PROPERTY DAMAGE IS HEAVY

Will Reach Fifty Thousand Dollars in Detroit and Elsewhere—One Fatality From Gale Occurs at Buffalo, N. Y., and Several Persons Are Injured by Being Hit by Parts of Buildings Blown Off by the Wind.

Detroit, April 8.—At least eight persons lost their lives in the storm that visited Michigan. Anthony Kaup, a saloonkeeper; Joseph Kadich, a barber, and Adam Felin, all of Wyandotte, attempted to cross the river in a rowboat from Wyandotte in a fifty-mile gale, to settle a wager, and all three were drowned when their boat capsized. Kadich bet Kaup \$5 that he would not dare to cross in the small boat and Felin was the stakeholder.

At Jennings, in Missaukee county, three young men named Bernard Carlson, Charles Jacobson and John Torrey were killed by being caught under a wall that was blown down by the wind at the Mitchell Bros. mill. Eight-year-old Benjamin Hellmer was killed by lightning near Ionia and Ray Miller was killed at Brighton when he was struck by a roof blown off by the wind. Rumors that a boy and girl were drowned at Belle Isle, Detroit, have not been confirmed.

The damage to roofs, chimneys, plate glass, etc., will probably reach \$50,000 in Detroit and Michigan. The wind velocity reached seventy miles an hour.

HIGH GALE IN NEW YORK CITY

Two Persons Badly Injured During the Storm.

New York, April 8.—The high gale which prevailed to the west and north of New York city, causing havoc with telegraph and telephone lines, attained its full force here when the wind reached a velocity of sixty miles an hour. Several persons were hurt and much damage and discomfort resulted. A low area over the Great Lakes and the shifting of the wind to the west was the explanation of the local weather bureau for the circumstance. The day was muggy, the temperature reaching 74 degrees. This was the highest officially recorded for the first week in April except on April 4, 1892, when the mercury went to 79 degrees. Early in the afternoon the wind began to blow hard, raising clouds of dust, shattering panes of glass and breaking loose signs.

Two persons, an elderly woman and a mere child, were badly hurt by being blown off their feet and dashed against objects in the street.

The Cunard line steamer Caronia from Liverpool could not berth but was obliged to anchor at quarantine owing to the gale.

The wind wrought considerable damage in the suburbs. Part of the steeple of the Pilgrim Congregational church was blown down by the gale.

ONE KILLED AT BUFFALO

Many People Injured During Gale in That City.

Buffalo, N. Y., April 8.—One man was killed and many people were injured by parts of buildings being detached by the force of the wind during an extraordinary gale, and hurled through the air. The whole front of Oppenheim Collins' dry goods store was blown in and many plate glass windows on Main street were shattered.

The lake was lashed into a foaming mass and the big ice field that stretched as far as Dunkirk was broken up and forced into this harbor. The big steel steamers J. J. H. Brown and William H. Truesdale broke from their moorings at the breakwater and were blown aground at the foot of Michigan street. A dredge got jammed in the ice and sank.

Telegraph and telephone service in all directions is demoralized.

WIRES WENT DOWN RAPIDLY

Storm Played Havoc With Them East of Chicago.

Chicago, April 8.—Wires east of Chicago as far as Pittsburg went down rapidly in the gale, according to telegraph companies. Wheeling, W. Va., reported every wire down east of that point. Of the numerous leased wires running east of Chicago but one was working and conditions

were said to be growing worse.

In this city several persons received minor injuries from toppling fences and loosened sign boards. Scores of plate glass windows were broken. By far the most freakish whim of the storm was to give a perilous ride to Samuel Holland, an elevated railroad conductor.

Holland was seated on the runway of a boxcar on the Metropolitan elevated when the roof was lifted up by the gale. It remained in a horizontal position and Holland went whirling away like a fly on a piece of cardboard. He lit over 100 feet from the

starting point, none the worse for his experience. The roof settled to the ground with comparative steadiness, considering its weight.

Friends among the train crew insisted that the conductor must be internally injured and took him to a physician, but the latter confirmed Holland's statement that he was unhurt.

STORM IN WESTERN OHIO

One of the Most Severe in Its History.

Toledo, O., April 8.—Western Ohio experienced one of the most severe wind storms in its history. Scores of people were injured, many of them seriously, and the property damage is large. In Toledo losses are estimated at \$25,000. The wind attained a velocity of seventy miles an hour.

The lives of pedestrians were endangered by falling signs, parts of roofs, chimneys, limbs of trees and blown-out windows.

A boy was blown out of a skiff into the river and was rescued with difficulty. Fifteen Toledoans were injured and two of them, Miss Minnie Schroder and James Gaudern, are in a serious condition. Miss Schroder was struck on the head by a heavy plank, which was blown off a building, and the Gaudern boy was blown twenty yards along the sidewalk and internally hurt. The main building of the Toledo-Massillon Bridge company was partially wrecked by the storm. The roof over the main building of the plant, 108 by 400 feet, was torn off and deposited in a field.

Many small towns near Toledo report much damage and many minor accidents.

SIXTEEN MEN ON MISSING VESSELS

Fate of Fishing Tug and Sand Sucker Unknown.

Cleveland, April 8.—The fishing tug George Floyd, with seven men aboard, and the sand sucker Mary H., with a crew of nine men, are missing and the steel barge Norman Kelley, with a crew of four persons, was rescued after a desperate struggle as a result of a sixty-mile-an-hour gale which raged on Lake Erie. The tug Anson M. Bangs rescued the barge near Sandusky.

The Kelley had been tossed about like a cork on the lake all day. The crew, three men and a woman, were picked up after floating fifteen miles away from Kelley's island, the mooring point of the boat. They had given up hope of being rescued and greeted the tug with feeble cheers and tears coursed their cheeks as the barge was taken in tow.

It was while Joseph Enio, Charles Todd, Mrs. Wood and a deckhand were attempting to strengthen the moorings of the Kelly that the ropes broke and they drifted out to sea.

Several small buildings were wrecked, bargies overturned and automobiles lifted from the ground and whirled through the streets in Cleveland.

HILL AND HARRIMAN FIGHT

Believed That It Soon Will Be a Thing of the Past.

Portland, Ore., April 8.—The Portland terminal situation is to all intents and purposes settled. Only a word from the Harriman directors in New York and the three years' war between the Hill and Harriman interests will be a thing of the past. President Louis W. Hill of the Great Northern said that all the terms of the settlement had been agreed on, but that Mr. Harriman wanted to take the matter up with his board when he reached New York. The decision of this board will be wired to the local officials and all legal matters involved in the negotiations may be concluded in a very short time.

TEN THOUSAND OUT ON STRIKE

Lake Engineers, Firemen and Other Vesselmen Quit.

REFUSE TO RECOGNIZE UNION

Shipowners Said to Be Determined to Break Up Every Labor Organization on the Great Lakes—Opening of Navigation Threatened With One of the Most Complete Tieups It Has Ever Suffered.

Chicago, April 8.—Ten thousand marine engineers, firemen, oilers and water tenders and deckhands went on strike by a vote taken Wednesday night. As a result the opening of navigation on the Great Lakes is threatened with one of the most complete tieups it has ever suffered.

The strike hinges on the refusal of the shipowners to recognize the marine engineers' union. The strike was called after contracts had been sent to 1,400 of the engineers as individuals. All but 35 of these contracts were returned unsigned and the union voted a general strike.

The oilers, water tenders and deckhands voted to go out in sympathy and as a result every vessel on the lakes seems likely to remain at moorings until the differences are settled. The men threaten to hold out until every demand is granted by the shipowners.

Actual hostilities were started in South Chicago when efforts were made by the vessel owners to start out a few boats that were ready to sail. It then developed that the marine workers had been notified not to ship on any vessels controlled by the Lake Carriers' association.

The local union here called out thirty-five firemen in South Chicago and reports received by the officers of the local union were that a similar action had been taken in other cities.

The Lake Carriers' association is said to be determined to break up every union on the lakes.

TO THE AMERICAN PEOPLE

Former President Roosevelt Sends Message From Messina.

Rome, April 8.—Just before his departure on the steamer Admiral for Mombasa, ex-President Roosevelt wrote the following message to the American people:

"Before leaving Messina I desire to say that I am sure the American people do not realize the splendid work that is being done at Messina and Reggio with the lumber sent from the United States. I have visited the American camp and seen 250 houses already completed and arrangements have been perfected for the rapid construction of 1,250 more. The work, which is under the general direction of Ambassador Griscom, has been organized and perfected by Lieutenant Commander Belknap, with the assistance of Lieutenant Buchanan, Ensign Wilcox and Spofford, Dr. Donelson, Paymaster Rogers, forty enlisted men of our navy and a number of stalwart American carpenters. In addition, there is a fine group of Americans, such as J. Elliott, Winthrop Chandler, J. Bush and R. Hale, who are giving their time and energies to help the philanthropic work.

"I wish to say I consider that the American people are deeply indebted to each and every one of these men. I cannot exaggerate the pleasure it gave me to see the officers and enlisted men of our navy adapting themselves to strange and unexpected circumstances and performing with ability and thorough good will this most difficult task. Our nation can well be proud of them."

REFUSED MINERS DEMANDS

Operators Desire Extension of the Oil Wage Scale.

Philadelphia, April 8.—At a meeting held here between committees representing the coal operators and the officials of the United Mine Workers, representing the anthracite workers of Pennsylvania, to consider demands made by the miners, the operators refused all the demands and submitted instead a proposition to extend the wage agreement brought about in 1906 by the anthracite strike commission for another term of three years. In order that the proposition be laid before the officers of the mine workers' organization of the three anthracite districts who are now in this city, the conference adjourned for a day.

The wage agreement which the operators seek to have renewed expired on March 31.

The miners, however, pending the outcome of the conference are working under its terms.

ALLEGED STANDARD OIL CONSPIRACY

Attorney Says Ida M. Tarbell Is Entitled to Patent on It.

St. Louis, April 8.—"Miss Ida Tarbell is entitled to a patent on the alleged Standard Oil conspiracy of 1879," declared Lawyer J. G. Milburn, the Standard Oil company's chief of counsel, during his argument before the four robed judges of the United States circuit court of this district, sitting in the government's case to dissolve the big oil corporation as a violator of the Sherman act. "And,"

MISS IDA M. TARBELL.

he added, turning toward Federal Attorney Frank B. Kellogg, "the government here is trying to deprive her of it."

Mr. Milburn also, as a simile, compared the Standard to the human body, with its many ramifications corresponding to the blood and its pipe lines to the veins and arteries.

"To dismantle this corporation would be to strike it dead. It is like the organism of the human frame. Every part is so related to the other that to separate them would be to dismember and destroy it," he said.

Instead of being a menace to the independent refiners, Mr. Milburn declared, the Standard had always led the way and blazed the trail in the oil world, and that the independents had but to follow, as they had always done. The Standard lawyer also insisted that under the Constitution a man had the right to sell anything he possessed, if he but had a man willing to pay his price.

Mr. Milburn did not conclude his argument and probably will talk several hours yet. He will be followed by Moritz Bosenthal, the Standard's so-called \$1,000-a-day lawyer.

MRS. SAMPSON IS PRESENT

Widowed Mother of Victim Attends Trial of Daughter-in-Law.

Lyons, N. Y., April 8.—The father and mother and two brothers of Mrs. Georgia Sampson, charged with killing her husband, Harry Sampson, were called to the witness stand to give evidence on which the state is depending to convict Mrs. Sampson of murder. A sad figure in the courtroom was the widowed mother of Harry Sampson, who soon will be called as a witness.

The defense scored several material points through the day's testimony. It was established that shortly before Harry Sampson staggered into the Allyn dining room and fell dead, Mrs. Sampson was seen on the second floor in her room.

Through Mrs. Allyn, the state's attorney brought out the fact that Robert Manson of Niagara Falls had written to Georgia inviting her and a friend, Miss Mildred Cervoss, to spend a few days in Niagara Falls. Harry quarrelled with his wife over the letter. Mrs. Sampson's lawyers asked that Manson had written asking Mrs. Sampson to act as a chaperone.

John Ebert, a neighbor, testified that Harry Sampson had smokeless powder cartridges in his possession on the day of the shooting.

The defense contended that this explains why no powder marks were visible on Sampson's shirt.

Carl Allyn, a brother of Georgia, testified that he had burned the outer shirt that Harry had worn when he was shot and that the black shirt in the district attorney's possession was probably another shirt of the dead man.

SAYS IT WAS MERELY A JOKE

Wisconsin Assemblyman Was Not Paid to Remain Absent.

Madison, Wis., April 8.—Charges that a Democratic assemblyman had been offered \$1,500 to remain absent during the vote on the election of Senator Stephenson, and thus allow the election of a senator after a long deadlock, were proved to be the outcome of a joke, before the legislative investigating committee. Assemblyman Joseph Domachowski of Milwaukee testified that he had been offered \$1,500 not to vote, and that his joke had been taken seriously by the lawmakers. He testified that he was the recipient of no such offer.

Democratic Assemblyman John T. Farrell of Milwaukee testified that he went out of the assembly on the day Senator Stephenson was elected because he was "sick and disgusted" at the attempt of members of the Democratic party for uniting with Republicans and Social Democrats to prevent the election of Stephenson. Mr. Farrell denied he had been offered anything for going out.

Democratic Assemblyman T. S. Ramsey of Milwaukee testified he was paired and no inducements to keep out of the assembly were offered.

Assemblyman F. C. Zimmerman of Milwaukee, who charged that \$1,500 had been offered a member to leave the chamber, refused to testify.

Two Fatally Hurt by Tornado. London, Ont., April 8.—The total damage resulting from a tornado which visited this district is estimated at \$10,000. Two persons were fatally injured.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the solar plexus of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach is utterly indifferent to, until diseased, the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

NIGHT TRAIN GOES ON APRIL 19TH

Minnesota & International Rail-
way Will Inaugurate New
Service That Date

DAY TRAIN GOES TO FUNKLEY

New Train Will Give Brainerd
Excellent Service in Both
Directions

The Minnesota & International rail-
way will inaugurate its proposed night
service on April 19th, when the first
sleeper will leave St. Paul for Interna-
tional Falls. The sleeper will be brought
to Brainerd on No. 9, which reaches
Brainerd at 11:15. The Minnesota &
International train will be made up here
and will leave Brainerd at 12:05 a. m.
reaching International Falls at 7:45 a.
m. Returning the train will leave
International Falls at 6:30 p. m. reaching
Brainerd at 1:55 a. m., leaving here at
2:39 for Little Falls where the sleeper
and such other through equipment as
will be determined upon, will be taken
by No. 6 and will reach St. Paul at 7:25.
The train will go north daily except
Sunday nights and will go south daily
except Saturday nights.

No. 30 and 31 the present passenger
trains will run as at present except that
No. 30 will arrive at 11:55 to connect
with the train for the west. This
train, however, will only run as far as
Funkley, arriving there at 7:15 in the
evening and leaving at 7:00 on the re-
turn trip.

Superintendent Strachan states that
the mail service on the new train will
be as desired by the post office depart-
ment but that it is certain that there
there will be either pouch or messen-
ger service or perhaps a combination of
both so that mail leaving the cities at
night will reach any towns on the M.
& I. the next morning.

The night trains will be flag trains
for Hubert, Merrifield and Nisswa, so
that anyone can go up and spend Sun-
day and return either to Brainerd or the
twin cities in time to get to work in
the morning and that without serious
loss of sleep.

The new train service will stop the
traffic "around the horn," by way of
Staples as it will be possible to take a
sleeper here at 2 o'clock and wake up
in the twin cities. The crew which
takes the train to Little Falls will
bring back that part of the equipment
which does not go to St. Paul and it is
probable that they will carry passen-
gers on the return trip which will per-
mit people from there to visit Brainerd,
transact business and return on the af-
ternoon train. At present it is impos-
sible to come from Little Falls and re-
turn the same day.

RAISE DUES OF CLUB

Evening Voted to Raise Dues
to \$25 per Year

The Commercial Club met Wednes-
day evening and had a very enthusias-
tic meeting. It was voted to amend
the by-laws so as to raise the dues from
\$2 a year to \$25. Notice was given of
another proposed change in the by-laws
to permit the club for a short time to
admit members without the payment
of the regular membership fee of \$10,
as regularly required. The committee
appointed to interview the members
regarding remaining at the increased

rate of dues, was continued after
which the club adjourned to meet Wed-
nesday, April 14, its regular night of

ly to do with the most tragic events
which happened during the last week
of the Christ before the Cross. The

NIGHT TRAIN GOES
ON APRIL 19TH

Minnesota & International Rail-
way Will Inaugurate New
Service That Date

DAY TRAIN GOES TO FUNKLEY

New Train Will Give Brainerd
Excellent Service in Both
Directions

The Minnesota & International rail-
way will inaugurate its proposed night
service on April 19th, when the first
sleeper will leave St. Paul for Interna-
tional Falls. The sleeper will be brought
to Brainerd on No. 9, which reaches
Brainerd at 11:15. The Minnesota &
International train will be made up here
and will leave Brainerd at 12:05 a. m.
reaching International Falls at 7:45 a.
m. Returning the train will leave In-
ternational Falls at 6:30 p. m. reaching
Brainerd at 1:55 a. m., leaving here at
2:39 for Little Falls where the sleeper
and such other through equipment as
will be determined upon, will be taken
by No. 6 and will reach St. Paul at 7:25.
The train will go north daily except
Sunday nights and will go south daily
except Saturday nights.

No. 30 and 31 the present passenger
trains will run as at present except that
No. 30 will arrive at 11:55 to connect
with the train for the west. This
train, however, will only run as far as
Funkley, arriving there at 7:15 in the
evening and leaving at 7:00 on the re-
turn trip.

Superintendent Strachan states that
the mail service on the new train will
be as desired by the post office depart-
ment but that it is certain that there
there will be either pouch or messen-
ger service or perhaps a combination of
both so that mail leaving the cities at
night will reach any towns on the M.
& I. the next morning.

The night trains will be flag trains
for Hubert, Merrifield and Nisswa, so
that anyone can go up and spend Sun-
day and return either to Brainerd or the
twin cities in time to get to work in
the morning and that without serious
loss of sleep.

The new train service will stop the
traffic "around the horn," by way of
Staples as it will be possible to take a
sleeper here at 2 o'clock and wake up
in the twin cities. The crew which
takes the train to Little Falls will
bring back that part of the equipment
which does not go to St. Paul and it is
probable that they will carry passen-
gers on the return trip which will per-
mit people from there to visit Brainerd,
transact business and return on the af-
ternoon train. At present it is impos-
sible to come from Little Falls and re-
turn the same day.

Success.

H. P. Dunn the enterprising druggist rather than await the ordinary methods of introduction, urged the Dr. Howard Co., to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, H. P. Dunn has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heart burn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

This latest achievement of science is of great value in curing sick headache. Thousand of women are today free from that painful disease solely through the use of this specific.

MEMORABLE TRIAL ENDED

Avery Blount Convicted of Murder in the First Degree.

Amite City, La., April 8.—The most memorable criminal trial in the history of Tangipahoa parish ended when the jury in the case of Avery Blount, tried for the killing of Buz Breeland, returned a verdict of guilty, carrying the death penalty with it.

The accused man received the verdict with comparative coolness, but his wife fainted.

Judge Ellis fixed Friday for the hearing on motion for a new trial. Blount, a prosperous merchant of Tickfaw, in this parish, was indicted on the charge of murdering Buz Breeland, Mrs. Breeland and the latter's daughter, Mrs. Joe Everette, the night of Jan. 22. He was tried on the separate indictment of Buz Breeland's killing. Garfield and Ben Kinchen, two brothers who are well known citizens of this parish, were also indicted for complicity in the assassination of the Breeland family. Ben Kinchen is now in jail here awaiting trial, but the other brother has escaped capture.

CASTRO AT FORT DE FRANCE

Takes Up Temporary Residence at That Place.

Fort de France, April 8.—Cipriano Castro, the former president of Venezuela, has taken up his residence, temporarily, at least, at this place. He arrived here on the French steamer Guadeloupe, which sailed from Bordeaux on March 26 and he very willingly came ashore owing to the British government's refusal to permit him to disembark at Port of Spain, Trinidad.

As the port authorities here had received no communication from the French government with regard to Senor Castro, they permitted him to land without opposition, considering him simply as a private individual. He was accompanied by his secretary, his wife and the other members of the party continuing on their journey to La Guayra. Castro has taken apartments at the Hotel Ipanema, to which he withdrew immediately and denied himself to all visitors.

The former president was greatly wrought up over the action of the British government and when seen on board the Guadeloupe soon after the arrival of the vessel, he expressed himself as having been outraged by the treatment accorded him by the governments concerned in his interdiction. He showed the utmost indignation at the action of President Gomez.

MEMORABLE TRIAL ENDED

Avery Blount Convicted of Murder in the First Degree.

Amite City, La., April 8.—The most memorable criminal trial in the history of Tangipahoa parish ended when the jury in the case of Avery Blount, tried for the killing of Buz Breeland, returned a verdict of guilty, carrying the death penalty with it.

The accused man received the verdict with comparative coolness, but his wife fainted.

Judge Ellis fixed Friday for the hearing on motion for a new trial. Blount, a prosperous merchant of Tickfaw, in this parish, was indicted on the charge of murdering Buz Breeland, Mrs. Breeland and the latter's daughter, Mrs. Joe Everette, the night of Jan. 22. He was tried on the separate indictment of Buz Breeland's killing. Garfield and Ben Kinchen, two brothers who are well known citizens of this parish, were also indicted for complicity in the assassination of the Breeland family. CASTRO AT FORT DE FRANCE

Takes Up Temporary Residence at That Place.

Fort de France, April 8.—Cliprino Castro, the former president of Venezuela, has taken up his residence, temporarily, at least, at this place. He arrived here on the French steamer Guadeloupe, which sailed from Bordeaux on March 26 and he very willingly came ashore owing to the British government's refusal to permit him to disembark at Port of Spain, Trinidad.

As the port authorities here had received no communication from the French government with regard to Senor Castro, they permitted him to land without opposition, considering him simply as a private individual. He was accompanied by his secretary, his wife and the other members of the party continuing on their journey to La Guayra. Castro has taken apartments at the Hotel Ipanes, to which he withdrew immediately and denied himself to all visitors.

The former president was greatly wrought up over the action of the British government and when seen on board the Guadeloupe soon after the arrival of the vessel, he expressed himself as having been outraged by the treatment accorded him by the governments concerned in his interdiction. He showed the utmost indignation at the action of President Gomez.
